EO Media Services infrastructure cabling services employs highly skilled BICSI certified professionals.

We offer installation and certification of traditional transmission medium to include twisted pair, secured fiber-optics, multi-conductor, coaxial, infrared, and specialized power cables.

Our Services include:

- Premise cable installation
- Indoor/Outdoor plant systems
- Wireless installations
- Demolition support
- Control systems (security systems, lighting, thermostats, audio, etc.)

PAST PERFORMANCE

We have received numerous awards for "outstanding service."
