**Secure your space with expert installation and database design.**

E.O. Media Services is experienced in surveillance systems design, installation and retrofitting of existing systems. Whether installing a new control center or integrating into an existing system, we take a 360-degree approach to developing the right solutions. We address camera types, resolution, recording specs, redundancy, custom alarm notifications, database design, analytics, and more.

**E.O. Media designs customized, scalable solutions such as:**

- Access control systems with keycards
- IP & Analog based camera systems
- Emergency giant voice
- NVR/DVR Recording

### PAST PERFORMANCE

We have recieved numerous awards for "outstanding service."
